

FIBERBOARD FURNITURE WAIVER

It is understood that the shipper has certain items of furniture which are classified as "of fiberboard construction". These articles have usually been purchased disassembled. Most manufacturers of this type of furniture suggest these items not be moved. They are made to be assembled just once and are not made to withstand the rigors of transportation. Due to this fact, it is not possible to guarantee they will arrive in good condition regardless of how much care is taken with them.

Because of this, we would like for you to choose one of the following options:

1. Do not include these items in the shipment.
2. Include these items, but understand the carrier cannot be responsible for any damage due to the inherent weakness built into this type of furniture.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

7. _____

8. _____

Please circle your choice and sign your name on the line below. Thank you for your understanding and cooperation.
